About Us :

Pearl International is dedicated to provide and supply with integrated solutions, such as spare parts and all kinds of equipment for of oil and gas sector, petrochemicals, steel factories, etc.

Since the day we started our business, we have been successfully serving our costumers all around the kingdom with the highest levels of professionalism.

Pride is the word that describes our feelings toward our accomplishments since the start until today, in a market that features constant growth and fast changes. We have come a long journey of continuous success since 2006, thru which we fulfilled most of our progressive goals.

A journey thru which we have committed to our strategic path based on a method that aspires to achieve growth and go toward a more productive future. A journey that has always been fueled by the dedication of workers, managers and skilled labor. Day after day, twenty four hour thru our continuous journey, our degree of efficiency in satisfying the work needs has paid off.

Our growing base of customers who trust the performance of Pearl International, left us with no other choice but to award them for their trust, by working harder every day to build a safe, strong, and thriving future.

Our Start :

In the eastern province of the Kingdom of Saudi Arabia (Jubail City), Pearl International was launched in 2006 as a group of integrated Saudi administrations, that features the efficiency that we aspire to as Saudis. A group that knows the Saudi market, its nature, and its requirements, and knows how to offer services that this market needs, and how to monitor them in the domain of general contracting, trading and real estate investment.

Our Business :

We do not have a magical recipe for success, but we have a tested one : a lot of work and dedication, commitment toward our customers, a rigid financial base, an ambition that defies hardships, and a tremendous experience in various fields.

All of the aforementioned lead us to establish a company with a record full of successful contracts, which we accomplished in our branches that cover all kingdom, and offer an arsenal of services available at any time.

Our Vision :

To become the first choice for our client to get the best services and the most innovative solutions.

Our Mission :

We have a unique working model that supports our ability to establish a sustainable growth in a steady pace.

The growth that we have seen, is going along with futuristic ambitious plans, on a way toward making us the biggest and the best in the kingdom in supplying all companies with the best equipment and spare parts , and providing the ultimate choices to supply our customers with goods from our international and local partners.

Because we realize the changes that we made throughout the last years on different aspects and the change that we are able to make in the future, we seek to provide a high level of quality that adds incomparable value to our investments.

Our Goals :

- 🎯 Providing the best service for the sectors that we deal with and earn their trust and satisfaction.
- 🎯 Creativity in offering integrated solutions and services for companies.
- 🎯 Accomplishing all contracts in total transparency and trust by respecting description, price, and supplying time.
- 🎯 Effective contribution in society.
- 🎯 Contribution in developing the skills of workers thru training and self-development.
- 🎯 Considering trust and quality as a corner stone to fulfill every contract.
- 🎯 Investing available resources in an optimal way, to reduce the cost and increase the income.
- 🎯 Localizing jobs.
- 🎯 Preserving natural resources, protecting the environment and boosting it.

Our Values :

- 👁 Working with team spirit.
- 👁 Being special in providing services.
- 👁 Keeping costumers data safe and confidential.
- 👁 Respecting time, fulfilling contracts efficiently and reliably regardless to their size or type.
- 👁 Doing what it takes to provide the best services.

Our way of work :

In any project, the satisfaction of customers is measured by the final result and its quality. However; here in Pearl International we pay extra attention to the comprehensive quality management and master the work in every stage, we do not accept results other than the best, and accept nothing but good reputation as an address for us; therefore we seek to:

- 1 — Putting the proper policies and procedures as number one priority.
- 2 — Attracting most efficient and specialized Competencies.
- 3 — Constant actualization for the working system according to the professional employment ways.
- 4 — Creativity in offering solutions and defeating obstacles, because ancient working ways aren't our ways.
- 5 — Committing to the time schedule and contracts accurately and professionally.
- 6 — Horizontal and vertical integrity to make the best use of resources to reduce the cost and increase the incomes.
- 7 — Protecting the investments of our customers through a sustainable study for the market and its changes.

Our potentials :

Since our foundation until today, we worked to realize the standards of quality with creativity and transparency, and we never have enough of success, with a loyal and special crew of workers, managers, trained individuals, specialized consultants, and skilled labor as one of our main assets. We are on a continuous mission to develop ourselves and our arsenal of equipment and devices to finish every project so that it earns our customers the highest returns.
